EXPERIENCE

11/14 - Present **Web Developer, Designer** **Self-Employed, Dallas/Ft Worth, TX**

I build and manage websites for individuals and small businesses using HTML/CSS, JavaScript, Bootstrap, and AngularJS in custom and WordPress environments. Areas of work include logos, online ads, and graphic design. Frequently I pursue entrepreneurial opportunities to create work for sale and self-promotion.

1/17 - 3/18 **Web Developer, Designer** **AlphaGraphics of Carrollton, TX**

I managed hundreds of online customer ordering portals to produce on-demand printable products. In a large capacity, I maintained a customer facing front-end interface using HTML/CSS, JavaScript, Bootstrap, and AngularJS in a .NET environment. In addition, I built frequent marketing promotional sites and email campaigns reaching thousands of current and potential customers. When necessary, I assisted in the daily graphic design production process, creating traditional pieces, including business cards and brochures.

5/15 - 9/15 **Web Designer** **Digital Sushi Studios, Ft Worth, TX**

As a contractor, I was tasked with the responsibility of building web sites for various clients in many different industries. On a part-time basis I would design and develop a web application for the client's specific needs in custom and WordPress environments. I was able to introduce a method of production, completing projects in a timely fashion.

9/13 - 10/14 **Web Designer** **GameStop, Inc., Grapevine, TX**

As a senior level designer, my duties involved producing core components of GameStop.com and creating high-level concepts. As part of an over-arching design team, I touched on various UI/UX web development projects as well as highly involved marketing promotions. I acted as mentor for lower-level designers and web production artists in my group.

3/13 - 9/13 **UI/UX Designer** **AutoStar Solutions, Ft Worth, TX**

Maintaining two roles simultaneously to provide support to Software Development and Marketing, I split my time designing the user interface for the company's flagship software. Additional time was spent managing the corporate website and auxiliary services.

2/06 - 3/13 **Web Designer** **GameStop, Inc., Grapevine, TX**

Using the latest design practices and technology, I created high-impact user experiences. I developed online promotional micro sites featuring high profile video game titles on GameStop.com. I supported the print team developing advertising elements for stores driving customer attention and increasing sales.
